- The items on the discussion agenda were reviewed.

F) COMMUNITY REPORTS

None.

G) PUBLIC COMMENT ON ANY TOPICS OR ITEMS OR COMMUNITY EVENTS

Andi Hart noted this Council, less Councilmember Potyondy, passed a ceasefire resolution related to the Ukraine invasion and detailed the number of casualties of civilians and children in that war versus the Israel/Gaza war, the latter of which is much greater. Hart stated it seems Council will not consider a ceasefire resolution for the Israel/Gaza war because it does not deem Palestinians, including children, worthy of life in the same way it did for the Ukrainians.

Michele Gliszinski expressed concern about the language used by the leaders of the NoCo Liberation Coalition at the last Council meeting.

Keith Richardson expressed concern about the proposed Poudre School District's planned school consolidations and closures stating they will impact neighborhood walkability, livability, and safety. Richardson stated these closures would ignore the already overburdened transportation department and increase air pollution. Richardson requested Council be proactive in engaging the School District.

Nate Berg expressed frustration with Council's refusal to consider a Gaza ceasefire resolution and read from the Council adopted ceasefire resolution related to Ukraine.

Tory Pappas expressed concern about the proposed closure of neighborhood elementary schools stating it goes against the City's values, particularly the commitment to active transportation as seen in programs such as Safe Routes to School.

Kate Bedford expressed concern about proposed school closures stating key goals from an urban planning perspective are being overlooked. Bedford also expressed concern about the closure of Beattie Elementary School from an equity perspective. Bedford encouraged the City and School District to work together to arrive at a thoughtful solution for the good of Fort Collins.

Paul Herman, Water Commission member speaking on his own behalf, opposed the NoCo Liberation Organization and condemned its mob-like behavior and anti-Semitic rhetoric.

Alan Braslau expressed support for Safe Routes to School and spoke on behalf of the Energy Board regarding Platte River Power Authority's plans to construct a new natural gas plant. Braslau stated the Board finds those plans to be counterproductive to the climate sustainability goals put forward by Our Climate Future. Additionally, Braslau stated the City's climate action goals, and 100% renewable electricity goal, were never aspirational in nature.

Stephen Tenbrink, Energy Board member, stated there are concerns that Platte River Power Authority has not used an open request for proposals to get wider input for other approaches to solving the dark calm issue that arises when renewable sources are not able to produce power.

Maxfield Martinez expressed support for neighborhood schools and safe routes. Additionally, Martinez expressed support for Council considering a Gaza ceasefire resolution.

Makeeba Helms opposed the closure of Beattie Elementary School stating it would be detrimental to some of the city's most at-risk students. Additionally, Helms stated the elimination of the co-teaching model used at Beattie would be harmful to the future of teachers in Fort Collins.

Laura Lenhart expressed support for a ceasefire resolution and requested the City stop supporting Woodward.

Alex Scott requested Council consider a Gaza ceasefire resolution and commented on the atrocities our tax dollars have funded by providing support to Israel.

August-Carter Nelson requested Council consider a Gaza ceasefire resolution.

Isabella Zapata discussed the situation in Gaza and requested Council consider a ceasefire resolution.

Jason Knebel commented on the war in Ukraine and expressed concern Israeli funding is now being tied to Ukrainian funding.

Adam Hirschhorn commended Redtail Ponds and those who help out there and discussed the Palestinian perspective.

Shirley Peel discussed concerns with the development review process and commented on two small businesses who are attempting to relocate and are hung up in the City process. Peel expressed support for an examination of the development review process to ensure it is efficient and does not place further burden on small businesses.

Kimberly Conner discussed the World Central Kitchen convoy members who were murdered by Israeli missiles in Gaza and commented on the number of Palestinians who have died in the conflict.

Elizabeth Hudetz stated the electric transition is occurring now; however, its dynamics are not being recognized by the infrastructure investments being made by some utilities.

M.L. Johnson, Ph.D., Ed. D., expressed concern about the impacts of the proposed school consolidation, including increased risk for students walking to school and increased bus and car traffic and associated increased pollution. Johnson requested Council to examine the consolidation proposals and consider the impacts to the city.

Lief Youngs requested Council consider a ceasefire resolution.

Cheryl Trine requested Council consider a ceasefire resolution.

Public Comment ended at 6:59 p.m.

H) PUBLIC COMMENT FOLLOW-UP

Mayor Pro Tem Francis concurred the City has an interest in the Poudre School District consolidation issue and asked if there are any updates. City Manager DiMartino stated there are no specific updates, though it was a topic at the last liaison meeting and will be discussed at the next meeting.

Mayor Pro Tem Francis suggested the City should have more involvement in the issue outside of the liaison committee and noted the Leadership Team discussed how to better involve the City. City Manager DiMartino noted the School District is working with an outside facilitator who is leading the engagement process and stated she would reach out to the District.

Councilmember Ohlson concurred with Mayor Pro Tem Francis on the City being involved in the School District consolidation plans and noted the City was involved in a previous effort to close Beattie Elementary School. Additionally, Councilmember Ohlson stated it seems the gas plant issue has been rushed at Poudre River Power Authority (PRPA) and better climate emergency friendly solutions could likely be found. He noted he is in the minority on the ceasefire resolution issue on Council.

Councilmember Potyondy thanked the speakers, particularly former Councilmember Peel who works hard to champion small businesses. She stated District 4, and to some extent District 5, are disproportionately impacted by some of the school consolidation plans, and those issues are related to City priorities and initiatives. She noted schools are part of the master plan of what makes a city great and stated the consolidation process needs to be robust.

Councilmember Canonico requested staff input on former Councilmember Peel's comments. Deputy City Manager Tyler Marr stated he would be happy to connect with any individuals who have had challenges with the development review process. He stated staff has been undergoing an intentional effort to examine how to make the development review process more efficient, particularly for small businesses. He noted the process is inherently complicated; however, staff is confident changes can be made without sacrificing standards that are critical to the community.

Councilmember Canonico concurred it is important for the City to be involved in the Poudre School District consolidation issue. She stated there will be tough decisions that will impact families, but noted the decision team includes a former City Planner and the former City Climate Project Manager.

Councilmember Pignataro noted one of Council's priorities is to pursue an integrated, intentional approach to economic health and stated some of what former Councilmember Peel discussed would fit under that priority. She also concurred on the City being more involved with the Poudre School District issue. Councilmember Pignataro noted the PRPA meetings are open and stated PRPA has been directed by its member entities to be 100 percent carbon neutral by 2030.

Councilmember Gutowsky commented on previous plans to close Beattie, Lopez, and Riffenburgh Elementary Schools and stated she is hopeful that ongoing conversations will lead to a good outcome.

Mayor Arndt stated there is no better investment in the community than in public schools. She also commented on the City's efforts to densify neighborhoods and offer more housing types, noting much of the pushback on those efforts has come from the west side of town where schools are planned to be closed. Additionally, she noted the Black Hollow solar project manager estimated it will be four and a half years until the transmission device needed will be available. She stated the natural gas plant mentioned has requested a permit for possibly being built if technology does not catch up.

Councilmember Ohlson stated the state should have stayed out of local control when it adopted regulations related to eliminating ordinances such as U+2. He stated the reason Beattie Elementary

School was previously set for closure was because anyone who could afford to move out of the area did so because of overoccupancy of buildings and the negative impact it had on neighborhoods.

In 2019, City Give, a formalized enterprise-wide initiative was launched to create a transparent, non-partisan governance structure for the acceptance and appropriations of charitable gifts.

This Ordinance, unanimously adopted on First Reading on March 19, 2024, clarifies and makes consistent certain terminology in City Code. This item will remove "curb stop" from City Code, to be replaced by "control valve." Replacement of this terminology removes any potential assumption that a water control valve on a service or fire line must have proximity to a street or sidewalk curb to define ownership of the valve and of the line extending from the valve.

Adopted on Second Reading.

10. Second Reading of Ordinance No. 047, 2024, Establishing Rental Rates and Delivery Charges for Use of Water Available Under Fort Collins Utilities' Raw Water Interests for 2024 Through March 2027.

This Ordinance, unanimously adopted on First Reading on March 19, 2024, obtains Council approval for the proposed formulas for calculating rental rates and delivery charges for Fort Collins Utilities' (Utilities) raw water supplies for the next three years, including proposed rental

rates and delivery charges for fully consumable water. The rates and charges would be effective through March 2027. Setting the rates and charges via formula ensures Utilities can recoup the ownership and administrative costs for rented supplies and provides planning certainty for the agricultural rental community.

Proposed formulas for most supply sources remain consistent with those from the previous rental rate and delivery charge ordinance (Ordinance No. 038, 2021). Staff is recommending an increase in the rental rate and delivery charge for fully consumable water to be in line with market conditions for this type of water. In addition, staff is recommending the rental rate for Water Supply and Storage Company supplies to be 130% of assessment versus the prior rate of assessment plus a flat administration fee. These are the only changes to rental rates and delivery charge methods.

Adopted on Second Reading.

- 11. Second Reading of Ordinance No. 048, 2024, Authorizing the Conveyance of a Permanent Non-Exclusive Domestic Waterline Easement on Property Jointly Owned by the City of Fort Collins and the City of Loveland at the Northern Colorado Regional Airport for the New Airport Terminal Facility.**

This Ordinance, unanimously adopted on First Reading on March 19, 2024, authorizes the conveyance of an easement to the water district to allow for a water service line for the terminal. The easement is over a portion of the Northern Colorado Regional Airport property, which is owned jointly by the City of Fort Collins and the City of Loveland.

Adopted on Second Reading.

- 12. First Reading of Ordinance No. 049, 2024, Reappropriating Funds Previously Appropriated in 2023 But Not Expended and Not Encumbered in 2023.**

The purpose of this item is to reappropriate monies in 2024 that were previously authorized by Council for expenditures in 2023 for various purposes. The authorized expenditures were not spent or could not be encumbered in 2023 because:

- There was not sufficient time to complete bidding in 2023 and therefore, there was no known vendor or binding contract as required to expend or encumber the monies; or*
- The project for which the dollars were originally appropriated by Council could not be completed during 2023 and reappropriation of those dollars is necessary for completion of the project in 2024.*

Additionally, there may have been sufficient unspent dollars previously appropriated in 2023 to carry on programs, services, and facility improvements in 2024 for those specific purposes.

In the above circumstances, the unexpended and/or unencumbered monies lapsed into individual fund balances at the end of 2023 and reflect no change in Council policies.

Monies reappropriated for each City fund by this Ordinance are as follows:

<i>General Fund</i>	<i>\$2,498,249</i>
<i>Cultural Services Fund</i>	<i>55,000</i>
<i>Recreation Fund</i>	<i>251,064</i>
<i>Museum Fund</i>	<i>61,265</i>
<i>Transportation Service Fund</i>	<i>1,288,625</i>

Water Fund	52,500
Date & Communications Fund	<u>390,600</u>

Construction pursuant to the Drainage TCE will modify existing floodplain boundaries, and the Drainage Easement will allow PSPR to store additional stormwater on a portion of Buckingham Park. The Sewer TCE is for the installation of public sewer facilities required by the City so that PSPR may proceed with the development of the adjoining lands. The actual conveyance of the easements will be conditional upon PSPR, or its successors and assigns, obtaining City development approval of the contemplated work within the easements.
